

OASIS

QUALITY EFFECTIVE EFFICIENT CONSULTING SERVICE

Oasis was established in 1996 with the goal of helping companies in Thailand efficiently and effectively implement and manage SAP solutions. Oasis Consulting became one of the first local implementers for SAP in Thailand, and the company remains fully dedicated and focused on the SAP product.

Focusing solely on SAP R/3 has allowed us to gain considerable in-depth knowledge and expertise in SAP. This skill-set combined with the experience we have accumulated from numerous SAP implementations over the years have helped to set us apart from the competition in Thailand.

Moreover, Oasis Consulting is well known locally for its proven implementation approach and methodology. Given our wealth of practical experience, we can customize implementations to the precise requirements of the customer.

SAP® Certified
Partner Center of Expertise

Implementation Service

OASIS is well recognized as a reputable SAP implementer by the SAP community for more than **16 years**

We provide implementation service to our customer under the Scope of Work proposed and to gather detailed requirements, design system blueprints, set up configuration, test, and move into production with high quality of work.

Every project is assigned a Project Manager who handles day-to-day coordination of all team members and customers, and senior consultants who are responsible for the ultimate success of the project.

After the system has gone Live, we will still be with you working side by side. We are confident that the system will be up and run smoothly, however, the preparation on the support should be well planned and organized.

Our strategy is to focus strongly on the knowledge transfer and customized trainings with the expectation for full cooperation obtained from every level of users.

OASIS's Team

Our teams have many years of experiences in SAP as well as business background. We believe in having a lean consulting team as this will save costs for both customers and our company. Therefore, it is obligated that our consultants must know more than one single module of SAP systems

All service cover Application, ABAP/4 Programming & BASIS Technical areas
